

# Hidden Springs

*157 acre estate with 1800 Federalist manor home, formal garden, & guest home*

*The early 19th century home is filled with exquisitely crafted details. Heart pine flooring and cabinetry create a warm inviting atmosphere. The main house was built for Patrick Henry's daughter in 1800, and was disassembled and brought to this site and rebuilt with a new basement and upgraded systems in 1991.*

*Perennial gardens, a parterre garden with fountain, and a large collection of boxwoods provide year round enjoyment. Additionally there are a fully restored and updated early 19th century log cabin and a charming two bedroom guest cottage*
